AFA WORKSHOP

Effective Turnaround Management

2-4 May 2017, at Hotel Karah
Saudi Arabia, Jubail

The bottom half of the cover features a photograph of a large industrial facility, likely a refinery or fertilizer plant, with several tall distillation columns and complex piping. The sky is overcast. A green diagonal stripe runs from the top right to the bottom right, and a yellow diagonal stripe runs from the top left to the bottom left, framing the central text.

AFA WORKSHOP

AFA is delighted to announce the organization of the workshop on "Effective Turnaround Management" in Kingdom of Saudi Arabia during the period:

2-4 May 2017, in cooperation with SAFCO-SABIC

Plant managers are continually confronted with the unpleasant consequences of chronic problems and poor performance during the planning and execution of plant turnarounds. Effective planning and understanding the keys to excellence in turnaround management are necessary to avoid the obstacles. In this interactive workshop, you'll discuss with a leading consultant in turnaround planning and management:

- **Keys to success in the four phases of turnarounds: Strategic Planning, Work Scope Development, Execution and Closure.**
 - Current methods versus best practices
 - specific turnaround goals and objectives
 - How to create achievable and cost effective schedules Using process specific benchmark standards
 - Understanding turnaround priorities and establishing performance remuneration scales that align with objectives
- **Early pre-planning and job-planning for the shutdown**
 - Key insights on operations readiness from the shutdown and start-up of fertilizer plants
 - Aligning turnaround projects and modifications with maintenance inspection and operations

Effective Turnaround Management 2-4 May 2017, Saudi Arabia , Jubail

- Defining the work scope, duration and cost triangle to design your critical path
 - Post shutdown review and preparation for the following year
- Establishing the commitment to safety and quality
 - Turnaround best practices from the shutdown at AFA members companies.
 - HSE planning aligned with turnaround activities.

SABIC/SAFCO profile

Saudi Basic Industries Corporation (SABIC) is the second largest global diversified chemical company established in 1976 to set up and operate hydrocarbon and mineral-based industries in Saudi Arabia and transferring them into value added industrial products. SABIC started with a capital of SR 10 billion. In a relatively short time, SABIC has established and commissioned 22 industrial complexes in Jubail and Yanbu. SABIC has also acquired plants in The Netherlands, Germany and the UK – all grouped under SABIC Europe.

SABIC's Agri-Nutrients Strategic Business Unit is dedicated to helping the worldwide agriculture industry produce higher yields of quality crops to feed an ever-growing global population. Its integrated range of products, ammonia and urea, as well as compound, phosphate and liquid fertilizers, have helped to maintain the position as a leading producer-marketer.

SABIC has three Agri-Nutrients manufacturing affiliates: SAFCO (Saudi Arabian Fertilizers Company), ALBAYRONI (Al-Jubail Fertilizer Company) and IBN AL-BAYTAR (National Chemical Fertilizers Company). These three world-class fertilizer affiliates have a combined production capacity above 8 million metric tons of ammonia, urea, compound, phosphate and liquid fertilizers. They utilize the most advanced production technologies to ensure product quality, consistency and customer satisfaction.
